Why have New River Entertainment create a *Video Legacy* for you & your loved one?

CHRIS NICHOLAS, owner of New River Entertainment, has over 18 years of experience working in television and film. After his mother had a heart attack, he filmed an interview with her asking her everything he ever wanted to know about her and her life. He wanted to have this to show his future children who their grandmother was in case they never got to meet her. Chris gave her the video as a gift to his mother on her 75th birthday. She cried with so much joy and watched it numerous times. She passed away three years later. Chris is so grateful that he has this Legacy Video of his mother to watch whenever he wants to. We all have a story to tell, and being a part of helping others tell their life stories and celebrations, and preserving those memories has now become his passion.

We look forward to helping you create something special for you, your family and future generations.
